Letter of Recommendation

To whom it may concern!

It gives me immense pleasure to recommend my student Mr. **Sahimullah SAHAR** S/o **Zabihullah** I have always found him energetic and enthusiastic student of my classes. He has always shown thirst for being educated.

He was one of the best students of the year. He always secured first division in his studies. During his stay always with us in a grad he has had many academic achievements. If any organization or institution provides him with an opportunity to pursue his future higher education I would be very thankful to recommend him.

I am perfectly confident that he will show his potentials in all the courses he is applying for or is eligible to. I would feel more honored to provide information about his educational qualifications and background. For any sort of further given contact address and number.

Sincerely yours,

Abdulhaq "HILAL"

Teacher of Asadabad Boys high school
